CERTIFICATE

of successful course completion

**Svitlana
KOVALSKA**

has passed the theoretical and practical course of Software Testing and can be considered as a Junior QA Engineer

During the course student has worked with the client-server application "QA Test" and has successfully completed the following tasks:

- analyze and test the product specification in Confluence
- create the check-list
- create the test cases in Qase
- create the bug reports in Jira
- perform re-testing and regression testing for the 3 versions of the application

Course Mentor
Yaroslava Mazepina,
Senior General QA
